ELEGANT EDITION

OF

The HOLY BIBLE.

PROPOSALS

For Printing by Subscription, (in four handsome
octavo volumes)

THE HOLY BIBLE,

CONTAINING

The Old and New Testaments.

CONDITIONS.

It shall be printed on a superfine wove paper,
with an elegant new type.

The price to subscribers will be Two Dollars
per vol. in boards, or Two Dollars and Fifty
Cents, handomely bound and lettered.

To those who subscribe for several copies, a dis-
count will be made, proportioned to the num-
ber subscribed for.

THE advantage of having this invaluable Book printed
on a large type, and, at the same time, in portable and
convenient volumes, appears to evident, that the encou-
ragement necessary to warrant an undertaking of such
magnitude, is confidently expected; a portable volume
would often be taken up, in a moment of leisure, when
the size of a large, unwieldy folio, would operate as an
apology for leaving it unopened, in this way, small por-
tions of time would be profitably employed, which might
otherwise be totally lost. In large families a Bible in
volumes, affording an opportunity for several to read at
once, may sometimes be peculiarly convenient; it seems
superfluous to add much on this subject—suffice it to say,
that no reasonable expence or pains shall be spared, to
render this edition of the Holy Scriptures both correct
and elegant.

The above work is in press, and will be finished about
the end of the present year.

Subscriptions received by R.

cimen of the paper and printing may

HOUSE OF REPRESENTATIVES.

Wednesday December 7.

Debate on the Amendment to the Constitution.

(Continued.)

Mr. R. Griswold. The gentleman from Kentucky will on examination find the amendment of my colleague not inconsistent with the spirit of the resolution. The object of that resolution is that every elector shall give a vote for President. If the office of Vice President shall be abolished, every elector will give one vote, and that vote will be for president. It may be said, it is true, that the discriminating principle will be done away; but it may be answered that it is no longer necessary. The enquiry is, therefore, fairly presented to the committee, whether we ought not to abolish the office of Vice President, as no longer necessary. I am clearly of opinion if we adopt the discriminating principle it will be useless, worse than useless. If that principle is adopted of what use can the Vice President be? For what purpose do we want him? To receive 5000 dollars a year? This may be beneficial to him, but it cannot be useful to his country. The office may confer honor on him, but the honor of an individual can be of no public utility. Will he be wanted to preside in the Senate; that will not be necessary, for the Senate sit half their time without the Vice-President, and I have not understood that the business is not as well done without as with him. For what purpose then will you have this officer? As heir apparent to the crown? If this is your object, select him from the best and greatest of your citizens, and do not adopt the principle that the electors shall vote for one man as President, and for another as Vice-President.

What will be the effect of this principle? The office of Vice-President will be carried to market to purchase the votes of particular states. A large state having numerous electors, and claiming the right to designate the President, but not having votes enough itself for that purpose, will carry the office of Vice-President to another state, and will say, give us the President and we will give you the Vice-President. If it be your desire to consider the Vice-President as heir apparent to the Presidency, elect him not in this manner, for he must be the child of corruption! With these views I am justified in saying the continuance of the office will be worse than useless, inasmuch as it will only tend to introduce a system of corruption. It will also give a particular state great weight in the Senate by giving it three votes, and the precedence over that body. Why do this? Under the old confederation they all were equal. Why unnecessarily impair that great principle? Why give to the state from which the Vice-President is selected, this power, together with influence of another kind. For these reasons I am of opinion that when gentlemen determine to discriminate they ought to go the full length of the principle. If they agree to amend the resolution it may be so altered as to make every part of the constitution correspond. Gentlemen will observe that I am discussing their principle, and that though I think the constitution far better as it is, yet if the discriminating principle is to prevail, I think that the amendment proposed by my colleague, will render the resolution far less exceptionable.

The question was then taken on Mr. Dana's motion, which passed in the negative—Ayes 34.

Mr. Elliot's motion recurring, Mr. Elliot said he could not suffer the question to be taken without noticing one argument urged by the gentleman from Pennsylvania, who conveyed the idea that as the resolution had passed the Senate, we must either take it as it is, or lose it altogether. From what premises this conclusion was drawn he was not able to discover, as he had observed before, after laboring for weeks on the resolution which embraced the discriminating principle, and we had agreed to it; the Senate have not acted on that, but have sent us another to which he was decidedly opposed. He could not but believe that a spirit of accommodation would actuate the Senate if we struck out this part of the resolution; but if he did not believe this he would not even then sacrifice his ideas to the opinions of the Senate; nor adopt the doctrine advanced by gentlemen of an imperious necessity. To this doctrine he would always oppose the dictates of duty and conscience. For he did believe if they adopted

the resolution from the Senate, they would render the constitution pregnant with greater evils than it was at present.

Mr. Goddard was happy to see the notice taken by the gentleman from Vermont of the remarks of the gentleman from Pennsylvania. If these remarks were just, we might as well be done with business at once. Are our minds to be trammelled with the decisions of the Senate? With great deference to that body, he would not suffer his mind to be bound down to their will. We have passed a resolution with a discriminating principle, they have sent us another resolution with other principles. Suppose they had said, if there were no election in the House of Representatives, the Senate should choose the President, would the gentleman from Pennsylvania vote for it. There was another effect of the resolution of the Senate; it would be giving to the large states both the power and the premium to combine in the election of the President. By the discriminating principle you vest the large states with the power of making the President, and throw the medium of the Vice-President you give them the means of effecting that object.

The question was taken on Mr. Elliot's motion, which passed in the negative—Ayes 38—Noes 81.

Friday, February 17.

Dr. Leib, from the committee appointed on that subject reported a bill more effectually to secure the independence of the judges of the courts of the United States.

Referred to a committee of the whole House on Monday next.

Mr. Claiborne from the committee appointed to bring in a bill making further provision for extinguishing debts due from the United States reported a bill.

Referred to a committee of the whole on Monday.

On the motion of Mr. Dana, the committee of Commerce and Manufactures were instructed to enquire into the expediency of amending the acts fixing the compensations of officers of the customs.

Dr. Mitchell presented a memorial from sundry owners of unregistered vessels in the city of N. York, praying that vessels originally of foreign construction, but rebuilt two thirds within the United States, and vessels originally built within the "Federal" territories and having since lost their registers, may be employed in the Whale and Seal fisheries, subject to no higher duties or tonnage than are paid on vessels duly registered and recorded when employed in like manner; provided such vessels are wholly owned by citizens of the United States; the petition states that the number of vessels now destitute of registers, and sailing only under sea-letters is very great and the number likely to increase; and urges the utility of employing them in the fisheries using the ordinary rate of duties as an equivalent for bounty and a capital encouragement of those useful branches of business.

Referred to a committee on fostering and encouraging the fisheries.

A message was received from the president of the United States by Mr. Harvie his secretary giving certain information respecting the situation of lands of the United States in the vicinity of Detroit.

Referred to a committee appointed to enquire into the expediency of amending the several acts respecting the sale of public lands.

Mr. Nicholson reported a bill supplementary to the act providing for a navy peace establishment.

The bill provides for the appointment of sundry agents to superintend the ships laid up in ordinary.

Referred to a committee of the whole on Monday.

Mr. Nicholson made a report on the petition of ——— Maritell, &c. praying for divorces. The report states that the committee have not thought it necessary to enquire into the merits of the individual cases, under the conviction that a general power to grant divorces should be vested in some tribunal. For this purpose the report concludes with a resolution to invest the circuit court with power to allow divorces.

Resolution agreed to—Ayes 75—and referred to a select committee to bring in a bill.

Mr. Rodney to whom was referred a memorial from W. H. Harrison, President of the convention of the Indiana territory, and other memorialists, made a report.

Referred to a committee of the whole on Monday.

An engrossed bill to amend the charter of Alexandria was read the third time, and passed—Ayes 79.

Previously to its passage Mr. Sloan spoke against it, principally on account of the restriction of the right of suffrage to freeholders.

The House resumed the consideration of the unfinished business of yesterday, viz. "what day should be made the order to the committee of the whole to consider the bill laying a TAX of ten dollars upon every SLAVE IMPORTED into the United States."

Mr. Lowndes moved that the further consideration of the bill should be postponed till the first Monday in December.

On this Motion a long debate ensued, which did not terminate till near five o'clock.

It was supported by Messrs. Lowndes, Hays, R. Griswold, Gregg, Alston, Holland, Rodney and Sanford; and opposed by Messrs. Finley, Sloan, Conrad, Smilie, Lucas, Epes, Jackson, S. L. Mitchell, Elmer, Stanton, and Bedinger, when the Yeas and Nays, being required, were Yeas 55—Nays 60.

A question was then taken on a postponement to the first Monday in May—Lost, Ayes 42—Noes 59.

Mr. Finley moved a postponement to the first Monday in March: which motion after some debate, prevailed—Ayes 55—Noes 50.

[To prevent an erroneous impression being made on the public by the notice proceeding, it is proper to remark that during the whole discussion, not a single voice was raised in defense of the act of the legislature of South Carolina allowing the importation of slaves; but that on the contrary, while by some of the speakers its immorality and injustice were severely censured by all its existence was deprecated. A large number of those who voted for the postponement, advocated it on the exports and not on the grounds that it would give the legislature of South Carolina an opportunity, which they believed would be embraced, to repeal the act.]

After which the society will return in the same order, when a discharge of 17 rounds will be fired from the Market-square.

The subscriber being appointed to Marshal the procession solicits in observance of the above.

GEORGE DENEALE.

The abuse of power has come out of mind been a pregnant topic of discontent. The complaint of it is often a stepping stone to power, power a stepping stone to abuse, and abuse again to complaint, and thus they run on a mill-horse round, furnishing the base trader in politics with means of deception and of profit, at the expense, not only of the public purse (that is comparatively a trifling evil) but of the public tranquility and comfort. In fact those who are the greatest complainers when they have no share in the government or power of the state, never fail to give the greatest cause of complaint when they get into it. The most lewd, babbling hound of the whole pack of demagogues, always becomes the most thorough paced fawning courtier—and he who when out boasts most of his own purity, and most loudly impeaches that of others, never fails when in to become corrupt even to rottenness. The very abuses which that description of men when in office practice, are the very things which furnish them with all the topics by which when out of office they endeavour to render government in the abstract odious to the people. In truth, power appears not more odious or more mischievous in their invectives, when as demagogues they abuse and beguile the people, than it is made by their practices when as public officers they plunder and oppress them. The people see it, yet the people never mend.

They listen with languishing regard to the demagogue of to-day, who is to be their betrayer to-morrow, though all the while he is reminding them that he who is their betrayer and plunderer to-day was but yesterday their demagogue and idol.

It was from a correct view of the heart of man as he is ever found to act in a political capacity, and a conviction of the truths we have stated above, that the federalists repeatedly foretold, and over and over again apprized the people, exhorting them to keep the prediction in remembrance, that as soon as ever those flaming sons of licentiousness under the abused name of liberty, the democrats, got into power, they would soon demonstrate to the conviction of the country what their real views were—whether they sought power to use for patriotic purposes, or for the purposes

**ONE HUNDRED DOLLARS
REWARD.**

RANAWAY from the subscriber on the 29th
of October last, a negro man slave named
BOB,
about 20 years of age, five feet nine inches high,
straight limbed and well formed; said slave had
an impediment in his speech which prevents him
readily replying to a question. He commonly
wears ear-rings. He took with him a variety of
good clothing, a description of which is unnece-
sary, as it is probable he has changed them. He
has been frequently seen about town since he ab-
sconded, and in all probability is now secreted by
his mother, Winney Brown, formerly the slave
of Mr. JOHN MUIR, late of this town, but now
said to be free. The above reward will be paid
for securing said Negro BOB, in any goal, and
a further reward of TEN DOLLARS for the dis-
covery of those who have been accessory to his
concealment.
Captains of vessels, &c. are forewarned at
their peril, not to take him away.

Dr. Hunter's genuine Antibilious Pills,
For the prevention and cure of Yellow,
Bilious and Putrid Fevers.
Every experienced physician knows
what dangerous disorders arise from a redundancy
of bile in the habit; however salutary a due secre-
tion of this fluid may be, yet a diffusion of it in
the circulation is known, from its putrescent qua-
lities, to bring on sudden and fatal fevers. The
unparalleled success of Dr. Hunter's Antibilious
Pills, in curing, and particularly in preventing
this dreadful disease, is universally known in the
islands, and has induced the proprietor to appoint
agents in all the mercantile towns in the United
States, for the accommodation of the public.
The Antibilious Pills are therefore, in an especial
manner, recommended as a preventative, deserv-
ing the notice of all persons going to the West
Indies, or any of those places infected with
these fevers. Dr. Hunter has every possible reason,
that can result from long and extensive experi-
ence, for believing that a dose of these pills,
taken once every fourteen days, during the pre-
valence of our fall fevers, will prove an infallible
preventative, and that, if taken in the early stages
of these fevers, their use will very generally suc-
ceed in restoring health, and frequently in cases
esteemed desperate and beyond the power of com-
mon remedies.

The operation of these pills is perfectly mild,
may be used with safety by persons in every situa-
tion and of every age.

In sickly times and places a dose should be taken
once a fortnight, and if there is reason to appre-
hend personal danger, once a week.

Observe that the signatures of Messrs. Thos.
Stokes and Co. is affixed to each box, without
which mark of authenticity they are not genuine.

MATRIMONY.
IT is much to be regretted but indisputably certain,
that many persons of both sexes are deterred from en-
tering into the married state, by Secret Infirmities, which
deceitfully forbids them to disclose; and there are not a few
who being already married, are rendered miserable for
want of those tender pledges of mutual love, without
which happiness in this life is at least very precarious.
It has been ascertained beyond a doubt that those circum-
stances are occasioned by general or partial relaxation or
weakness in either sex, and it is equally certain that the
genuine AROMATIC LOZENGES OF STEEL are
the best, if not the only remedy ever discovered for this
species of debility. When taken into the stomach, they
immediately dissolve and diffuse themselves like a vapor
through every pore, producing effects at once delightful,
salutary and permanent. When the spark of life begins
to grow dim, the circulation languid, and the faculties
paralyzed, these Lozenges are found to give tone to the
nerves, exhilarate the animal spirits, invigorate the body
and reanimate the whole man. When aversion to exer-
cise, loss or depravity of appetite, and palled countenance,
indicate approaching consumption, the delicate female
will be preserved and restored to health and society by the
benign influence of this medicine. When the delusions
of imagination, or the force of bad example, have tempted
unguarded youth into the dangerous labyrinth of secret
sensuality, debilitated his body, and impaired his under-
standing, these Lozenges will protect him from lingering
disease, the infirmities of premature old age, and a wretch-
ed dissolution amidst the agonizing reflections of conscious
guilt.—When the sons and daughters of dissipation have
brought on themselves debility, relaxation, imbecility,
and a long train of nervous affections, manifested by im-
paired memory, anxiety, agitation, tremors, languor,
paleness, emaciation, indigestion, apathy in men; hy-
sterial spasms, loss of appetite, irregularity, weakness, abor-
tion, pains in the back, chest, &c. in women; these lozen-
ges will restore health and vigor to the debilitated frame,
and cheerfulness and animation to the mind.

Price One Dollar per packet.
Particular directions for their use are sealed up with
each, but as the great benefit to be derived from them
can only be secured by having them genuine, the public
are requested to observe that the signature of Messrs.
Thos. Stokes and Co. are affixed to each packet, without
which mark of authenticity, they are not genuine.

Dr. Atkinson's genuine Effense of Mustard.
Rheumatism in every stage, instantly submits to its pe-
netrating powers, which has succeeded in curing the most
desperate cases of rheumatism, gout, lumbago, sciatica,
numbness, palsy and complaints of the stomach, after
springs medicines have proved ineffectual. It is prepared
in pills, and also in fluid state. The pills are particularly
serviceable in flatulencies and indigestion, and by their
salutary operation, promote perspiration, and gradually
undermine the most obstinate rheumatism; and, at the
same time, invigorate the debilitated constitution. The
fluid effense is a remarkable active embrocation, necessarily
used with the pills, and as generally excites a tingling sen-
sation, it removes the causes of pain, by bringing on a cir-
culation in the parts affected; by this means, frozen
limbs, the severest sprains and bruises, old strains anore-
laxations, are generally cured by a few applications. The
genuine is distinguished from counterfeits, by the signa-
ture of Thos. Stokes and Co. being affixed to each bot-
tle; without which mark of authenticity, none are genu-
ine.

The genuine Scotch Itch Ointment.
The only medicine that cures this disagreeable disease,
by one application; so many thousands having experienced
its efficacy; it is unnecessary to add any more arguments
in its favor, but to caution the public that the name Thos.
Stokes and Co. is affixed to each box, without this
mark of authenticity, none are genuine.

Dr. Bardwell's genuine Eye Water.
A sovereign remedy for all diseases of the eyes; spe-
cifically removes inflammation, dimness, itching, and films;
it never fails to cure those maladies which frequently suc-

ceed the measles, small-pox, and fever; and is an unpa-
ralleled strengthener of a weak sight.

Dr. Hunter's genuine Antibilious Pills.
An agreeable and certain preventive of the predisposi-
tion to inflammatory and malignant fever, which prevails
at particular seasons of the year. The rapid and increasing
demand from every part of the United States, and the
West India islands, is the best evidence of their superior
excellence.

**CHAMBAUD'S
Antasthmatic Lozenges.**
A radical cure for coughs, colds, asthma and con-
sumptions, difficulty of breathing, &c. &c.
Mr. CHAMBAUD, the sole proprietor of
this medicine, has the satisfaction to announce that
they have been the means of relieving many persons
in a most precarious state of health. In common
colds this medicine produces so salutary a perspira-
tion that they generally are eradicated in a few
hours. Coughing, being prolonged by that convul-
sive symptom termed the tickling in the throat, it
shortens its duration by promoting sleep and strength-
ening the constitution. Pulmonary complaints, af-
fecting the breast and lungs; those affected with
them experience an almost immediate relief. Ast-
hma and confined consumptions have repeatedly been
eradicated by them. Infants in the whooping-cough,
and women during pregnancy, may take them
without the least fear of danger, and with the
greatest expectation of relief, nor can it be admini-
stered at an improper season.

**Dr. BARDWELL'S
Annodyne Effense, for all kinds of
Head Ache.**
THE renowned virtues of the Annodyne Effense,
is now so generally known, that it is no presumptu-
ous in the Proprietor, to say, that Head Aches, arising
from whatever cause, or however violent, in-
stantly submit to its penetrating powers. This in-
valuable Annodyne, has frequently succeeded after
the best advice, and every other remedy had fail-
ed; by its salutary operation, it insensibly promotes
circulation and perspiration, and thereby prevents
the return of the most obstinate periodical head
aches.

SPRING PHYSIC.
DR. HUNTER'S Anti-Bilious Pills are unquestion-
ably proved by ample experience to be the most effectual
remedy, at the same time the most innocent, pleasant,
and convenient medicine for the cure of curvy, scorbutic
eruptions, leprosy, and other disorders originating from a
corruptive state of the blood. The remarkable cure of
Mr. Ellison, of Albany, who had been twelve years
tormented with a most distressing scorbutic complaint, as
also that of Thomas Johnson, a labouring man, in the
service of Mr. Van Rensselaer, who was afflicted with a
most horrid leprosy, must have convinced every one who
has read the particulars of these cases, besides which, a
variety of proofs of their efficacy, authenticated by per-
sons of character and respectability are open to the ex-
amination of every inquirer. These must naturally be
supplied to have their due weight, and supercede the
necessity of any further comment from the Proprietor,
yet, he presumes to assert, that the real merits of this
vegetable preparation will, on a fair trial, plead more
forcible its own recommendation than any thing which
can be said of it.

Where also may be had,
Atkinson's Worm destroying Lozenges.—These Lo-
zenges not only destroy worms where they exist, but ef-
fectually prevent their return. Those families who have
followed Dr. Atkinson's advice, and used them in the
Spring and Fall among their children, as their commu-
nary physic, have now the happiness to find those children,
which appeared sickly and consumptive, in the bloom
of health, being entirely delivered from those dreadful
vermin.

**Sparta, Mount Pleasant,
March 27, 1803.**
We hereby certify, that our daughter, about 4 years
of age, has been very unwell and in a bad state of health
for these last two years. We always suspected that she
had worms, and had given her several worm medicines,
without any good effect, so that we despaired raising her
till of late. Hearing of some surprising cures being per-
formed by Atkinson's worm destroying Lozenges, we pur-
chased a packet of them, and administered them ac-
cording to the directions. The first dose brought away
only one worm, and with it a quantity of slimy, offen-
sive matter; the second brought away four monstrous
thick worms nearly half a yard in length; and the third
dose, a large quantity of a slimy, offensive matter. The
vomiting and purging, with which she was frequently
troubled have ceased—her appetite has become regular,
and has over since enjoyed a perfect state of health, for
which we are entirely indebted to this excellent medicine.

**DR. BARDWELL'S
Re-animating Solar Tincture, or Pabulum of Life.**
Of the cure of Consumption and Asthma. Disorders in
the Stomach and Bowels, Convulsions, Cholera and Di-
sentery.
Cautious investigation, and attentive enquiry into
the nature and laws of the animal economy, having long
conferred an opinion in the mind of the inventor, that
all the maladies above mentioned, derive their origin
from the same cause, indirect debility, or consequent
weakness, the analogy of their source, by a natural in-
ference suggested the idea of their removal by the same
means; the result was the discovery of the Re-animating
Solar Tincture, which after having been employed in
thousands of instances, with the most unexampled and
astonishing success, has obtained the warmest approbation
of characters of the first respectability, both in and out of
the profession; the proprietors can confidently recom-
mend, as one of the most certain, efficacious, and pleasant
remedies ever discovered by man or offered to the world.
Price, 1 dollar and 1 dollar 5 cents per bottle. The
large bottle contains nearly two of the small. Copious
Directions for their use are sealed up with each bottle.

**Dr. Stoughton's Cordial Bitters, faith-
fully prepared at the original warehouse, Lon-
don.**
This incomparable medicine has stood the test
of universal approbation in Europe for near an hun-
dred years, in the cure and prevention of,
Loss of appetite, bad digestion, windy cholera,
urinary, hysterical vapours, faintness and trembling,
ague and fever, depressed spirits, foul breath,
worms in children, scurvy, obstructions or stop-
ages, bilious fevers, sick fits, &c. &c.
These Bitters being now generally used in
taverns and public places, and universally acknow-

ledged by all who have tried their effects, to be
superior to the compositions formerly imposed
in imitation thereof; the proprietor hath reduced the
price to those who purchase largely above fifty per
cent. Directions will be patted on the bottle
and which will be also sealed, in order to detect
counterfeits and upstart pretenders, who will
tell you, they make the genuine Stoughton's Bi-
tters; and in order to impose their trash on the pub-
lic, they sometimes copy a part of the true ad-
vertisement and directions.

Specific Drops for Deafness.
FOR many years have these drops been used with
amazing success, in DEAFNESS & HARDNESS OF
HEARING. Those who are unacquainted with the
great relief afforded by this valuable medicine, are con-
tinually recommended to trial. Few are the cases in which
it has not been of great service, and very often perfects
a complete cure.
Copious directions for the use of the Specific Drops
for Deafness are sealed up with each bottle. Price one
dollar.
